- **Valid Transport Canada Seafarer's Medical, Marine Emergency Duties (minimum A1 or DVS) and a valid Passport.**
- Extensive knowledge of factory freezer trawler operations and fishing equipment.

#### Duties Include:

- Assist the Chief Engineer with vessel technical operations, including specific tasks and all other duties delegated by the Chief Engineer.
- Make on the fly mechanical repairs and replacements in the vessels processing factory to maintain consistency in the factory as it pertains to production and throughput.
- Ability to identify failures, develop worklists and carry-out preventative maintenance schedules.
- Safely and efficiently operate machinery systems and apply safety policies.
- Understand, operate and trouble-shoot the ships electrical assets.
- Execute all scheduled and corrective maintenance on the ships assets.
- Perform metal fabrication and machine work when required, including the use of lathe, welding equipment and other similar equipment.
- Keep records as required by ship standards, including logs, safety documents and other records as required or assigned.
- Assist with maintaining proper inventory levels and ordering critical spares.
- Promote a safe, courteous atmosphere and strive to make improvements in a professional manner.
- Work trip on, trip off rotation as well as working in port with members of the opposite rotation.
- Perform other duties as assigned.

An equivalent combination of education and experience will also be considered. Salary will commensurate with qualifications and experience. An excellent benefits package is available, including health and pension plans.
