We're Hiring

Chief Engineer (Full-Time, Seasonal)

Triton Facility

Ocean Choice International (Ocean Choice) is one of Atlantic Canada's most diversified seafood companies, sustainability producing and marketing a full range of shellfish, groundfish and pelagic species. All of this would not happen without our people working right here at home. At Ocean Choice we're all about families, connected to each other and our communities.

We are currently accepting applications for a dynamic, highly skilled, and organized individual for the position of **Chief Engineer** to join our team at our processing facility in Triton, Newfoundland and Labrador.

Responsibilities:

Reporting to the Plant Manager, the Chief Engineer will perform their duties with a high degree of efficiency and accuracy, and is responsible for, but not limited to the following:

- Safely operate and maintain all ammonia refrigeration systems, steam generation and distribution systems at the plant in accordance with regulations.
- Supervise shift operating engineers to ensure work is being completed in a safe and accurate manner.
- Develop and implement operational, maintenance, and safety procedures.

Eligible candidates must possess a Third or Fourth Class Power Engineer's Certificate of Competency with a Refrigeration Class "A" Certificate, supplemented by relevant experience in an industrial food processing environment.

We offer a competitive salary and benefit package. Salary will be commensurate with qualifications and experience. This is a full-time, seasonal position.

Interested candidates should apply, in writing to bvincent@oceanchoice.com or fax the Plant (709) 263-2105 on or before Tuesday, February 6, 2024.

Ocean Choice is an equal opportunity employer.
